

Housing Forums

March 18, 21, & 23

Share your thoughts on the future of housing

Housing that meets the needs of people at all stages of life is a key component of a thriving city. That's why the City Council's vision includes direction to create a variety of housing types and support safe and inclusive communities.

Bellevue's housing goals include:

- Creating more housing options such as duplexes, townhomes, and small apartments.
- Creating options that are affordable at all income levels.
- Locating housing near jobs and transit.

Community members are invited to discuss this important issue at one of three upcoming **Housing Forums**. Participants will have the opportunity to explore data around the city's housing needs, ask questions, and engage in small group discussion.

Saturday, March 18

10 a.m.-1 p.m. at Crossroads Community Center.

Open house, drop-in event. Come at any time and stay for as long as you like.

Tuesday, March 21

6-8:30 p.m. at East Shore Unitarian Church.

Interactive workshop and presentation with opportunity for in-depth, small group discussion.

Thursday, March 23

12-1 p.m., virtual event. Hear a short presentation from city staff with time for questions.

People of all ages and backgrounds are encouraged to attend. Refreshments will be served.
